

## **City of Hilshire Village Solar Panel Requirements**

*Per City Ordinance:*

*Sec. 3.1015. - Solar panels.*

*Solar panels shall mean structure containing one (1) or more receptive cells, the purpose of which is to convert solar energy into usable electrical energy by way of a solar energy system.*

*(1) Solar panels may be installed so not visible from any front or side adjacent street.*

*(2) Solar panels may be installed after plans are submitted to the city, approved by the building official and proper permits are issued.*

*(3) Solar panels may be installed as long as no trees are removed.*

*(Ordinance 735, adopted 9/26/16, Section 1)*

Plans will need to be stamped by an engineer and include:

- a site plan with schedule of components
- electrical one line
- rails layout
- wind load

**Also, consider deed restrictions from HOA regarding the placement on the property. The city does not enforce any HOA requirements but the homeowner(s) may still be responsible.**
